

October 18th 2012

This letter supports a class II permissive change for BT-5830v2 FCC and IC Z8Z-BT5X30V2 , 2991A-BT5X30V2 respectively. Class II permissive change is requested due to a new CPU board and new cellular module. The new model would be BT-5730v2. WiFi and and cellular antennas will not be collocated as explained in the attached user guide (pg 48). WiFi radio is same as it was certified earlier.

Regards,

A handwritten signature in dark ink, appearing to read "Kerry Armstrong". The signature is written in a cursive, flowing style.
